

**SCI**Where science meets business
an environment to advance knowledge exchangeYORKSHIRE AND THE HUMBER GROUP
IN ASSOCIATION WITH PEG AND SEG GROUPS**Seminar Process Engineering
Innovation and Process
Intensification**To be held on Wednesday 6th April 2011 at**THE UNIVERSITY OF LEEDS**Houldsworth Building, Clarendon Road,
University of Leeds, Leeds LS2 9JT. UK

The delegate fee will be £25 per head. Please book you place on line at <http://www.soci.org/Events>, please indicate if you are going to attend the optional visit to iPRD laboratories.

Preliminary Programme

TIME	SPEAKER/ACTIVITY	Process Engineering Innovation and Process Intensification
11:30	Registration	
11:45	Ms Susan Pollard	Optional Visit to iPRD laboratories
12:30	Lunch	
13:00	Dr. Carlos Harrison WorleyParsons Europe	Introduction and welcome
13:10	Dr Ian McConvey, Principal Scientist, Pharmaceutical Development, AstraZeneca	The challenge to deliver process innovation with adaptive science and technology practice and principles
13:55	Professor. Chris Rayner, School of Chemistry University of Leeds	Innovation in fine chemical processing using carbon dioxide.
14:40	Dr Lee Procter Phoenix Chemicals	Flow Processing - An economic and green manufacturing technology for construction of advanced Statin side-chain intermediates
15:25	Tea and Networking	
15:40	Professor John Blacker, Director iPRD, University of Leeds	Cross disciplinary working in the development of sustainable fine chemical and pharmaceutical processes
16:05	Open Forum Discussion	
16:30	End of Seminar
